

A Bending Company

COMPANY PROFILE

A Bending Company is a dynamic mid-sized engineering and manufacturing company specializing in Tube & Pipe components. Established in response to a marketplace demanding a higher level of service throughout targeted industries, we have achieved a significant share of this market due to our ability to listen and respond to the needs of our customers.

Since being founded in 1991 the company has offered professional engineering services to a wide variety of clients throughout Australia and overseas. We have rapidly grown to become the supplier of choice for many of the leading Australian manufacturing companies. Our services are used in industry sectors as diverse as Aerospace, Petrochemical, Defence, Manufacturing, Construction, Mining, Infrastructure and Utilities. We have become widely known for our willingness to take on the most challenging work and delivering results for our customers.

With a strong customer focus and commitment to Quality, On-time Delivery and Value for Money, we continuously strive to develop our extensive range of equipment and technical capability by which we have earned our high reputation.

Key points:

- ISO 9001 accreditation
- Largest range of bending tooling in Australia
- CNC Bending capability from 6mm to 76mm
- Capacity up to 168mm Ø Pipe and 150 x 75 Channel
- Total service provision covering bending, rolling, fabrication, assembly and powder coating
- Defence accredited supplier
- Technical advice & Prototype service

An established ISO 9001 Quality Endorsed company since 1996, **A Bending Company** has also undertaken and passed the rigorous assessment process to obtain a "Defence Accredited Supplier" rating. We act as the "Bending Department" for numerous Australian manufacturers, who need to deliver results, contain costs and maintain the highest quality standards.

We offer a competitively priced service to suit your requirements; our flexibility and versatility give you the comfort of knowing that you are being looked after properly. We are small enough to know you, yet large enough to cater for all of your needs.

We can solve your problems, deliver results and increase your bottom line.
